

E911 Task Force Agenda

August 15 2012

Each Committee Fine Tune Their Recommendations

No More Than Five Recommendations per Committee

Prioritize the Recommendations

Present Recommendations to the Group for Discussion

Items to be included in the Legislative Report:

- a. Enhanced technology needs of local PSAPs to ensure timely, quality emergency response service
- b. Identification of new wireless technologies used in E911 service delivery
- c. Funding needs to meet state and federal emergency communications technology mandates
- d. Potential wireless and wire line surcharge adjustments to meet E911 service delivery demands, including specific recommendations on surcharge equalization and on the distribution formula.
Recommendations on the temporary moratorium on the wire line alternative surcharge (up to \$2.50 for 2 years)
- e. Local and state E911 administration and governance

Next Meeting Date (if needed)
