

Session title:

Railroad Emergency Response and Hazardous Materials Awareness

Session speakers:

Derek Lampkin-BNSF Railway

Tony Houdyshell-Canadian Pacific Railway

Session summary:

BNSF RAILWAY in conjunction with TransCAER® (Transportation Community Awareness and Emergency Response) is pleased to present railroad familiarization for community emergency responders. The course is presented from a rail industry and hazardous materials perspective. This is to ensure that participants receive a better understanding of the hazardous materials regulations that apply to land transportation and in particular, to the railroad industry.
