

STATE OF IOWA FLOOD MITIGATION PROGRAM PROGRESS REPORT

PERIOD COVERED BY THIS REPORT 4/13/2015 to 4/30/2015

LOCAL CONTACT NAME: Jim Ferneau

GOVERNMENTAL ENTITY: City of Burlington

ADDRESS: 400 Washington Street

Burlington, IA 52601

TELEPHONE NUMBER: 319.753.8120

PROJECT TITLE: Burlington Flood Mitigation Project

AGREEMENT NUMBER: 2015-0

ACTIVITY COMPLETION TIMEFRAME: 4/13/2015 to 12/31/2023

The management of actual words that has been accordated at the and of							
PROJECT OVERRUN/ (UNDERRUN):	\$	(11,386,754)	\$	(20,389,542)	\$ (26,200,000)	\$	(57,976,296)

<u>Description of significant activities of this semi-annual term. Include comparison of actual accomplishments to the objectives identified in your application. Attach pictures and a narrative. Status changes or delays, please explain reason.</u>

Phase I

In 2009 two equalization tanks were constructed in the Hawkeye drainage basin. During large rain events, the capacity of the Market Street Lift Station is surpassed by the amount of infiltration into our sanitary sewers. This additional flow is diverted into the two equalization tanks, located at the Lucas Street and Gunnison Street sites, via regulating chambers and then discharged to the lift station as it is able to handle the flow.

Phase II

In 2009 Water System Improvements were completed including 5,430 linear feet of 20-inch diameter water main in open cut, 5,310 linear feet of 16-inch water main in open cut, 47 linear feet of 12 inch water main in open cut, 24 linear feet of 8-inch water main in open cut, 80 linear feet of 6-inch water main in open cut, valves, valve boxes, hydrants, connections to existing systems, water service connections, pavement milling, pavement removal and replacement, controls integration, erosion control measures, handling of existing utilities, traffic control, construction staking, surface restoration, and miscellaneous associated work, including cleanup.
